

## 8 STEPS TO YOUR NEW JWH KITCHEN

### 1. **Getting to Know Each Other:**

The ideas start flowing quite quickly at your free design consultation in our JWH Showroom. Bring all your photos, thoughts and questions to this highly creative and educational session. A realistic conversation about budgets and expectations is the best way to ensure everyone is on the same page. A successful project is based on open communication and mutual respect. This is a great opportunity to make sure the project is a good fit for everyone.

### 2. **Starting the Design Process:**

Your first meeting has generated enough ideas, confidence and excitement to officially get your project started. With a signed Design Agreement and Design Deposit, JWH is ready to jump in with a visit to your home for measurements and photographs. As every project is a unique opportunity to explore new layouts for your home, please keep an open mind as we explore different options with you in our 3-dimensional views.

### 3. **Starting Your Cabinetry Shop Drawings:**

Your overall layout and appliance decisions are finalized, and your cabinetry price is estimated to make sure you are comfortably within budget. The detailed Shop Drawings are now ready to be started with a 50% deposit. These specialized CAD drawings will include recommended architectural changes, framing, appliances, plumbing and electrical notes, as well as critical interior and exterior details of your Cabinetry. They will be shared with you and the professionals on your project to ensure JWH's designs are fully coordinated.

### 4. **Making All the Fun Decisions:**

Pulling together all the materials, colors, styles and textures, as well as the technical details, is a highly interactive and creative process at JWH. Our 3-dimensional drawings with actual product photos, will give visual support for your decisions, and the JWH design team will share all our expertise and advice, to help you make coordinated choices. Simply roll over your initial Design Deposit and let us coordinate these critical details for you.

### 5. **Choosing your Installation Team:**

Your beautiful new Cabinetry deserves the best professional installation. This takes time, experience and expertise, as well as specialized equipment. Our Installation Agreement explains the full scope of services provided by our JWH sub-contractors. They take responsibility for final sign off of the measurements, cabinet delivery into your home, as well as the installation of your cabinets, hardware, moldings and appliance panels. And when your project is finished, they will come back for final adjustments and touch ups to make sure your new Cabinetry is perfect. If future adjustments or touch-ups needed, just call JWH.

### 6. **Your New Cabinetry is Ready to Arrive:**

Production of your Cabinetry is finished and we are ready to deliver to your home. The final payment for your cabinetry is due now. Flooring should be installed, walls primed, ceilings painted, and heat/air conditioning in working condition. If your space is not quite ready, JWH will coordinate professional short-term storage for your Cabinetry (at no cost to you.)

### 7. **Managing your Project from Start to Finish:**

JWH knows how to manage your project quickly, efficiently and professionally. We prepare a detailed line item budget and time line to make sure we are all starting with realistic expectations. We believe in working with an "open book" policy throughout the course of construction. This keeps everyone working together on the same team from start to finish. Our touch-up team is the final step to make sure your cabinetry looks beautiful.

### 8. **Now it's Time to Relax and Enjoy your New JWH Kitchen!**
